

## News Release

### NEW – *LectroCount LCR-II™*

Lake Bluff, IL – Liquid Controls Inc., an industry leader in flow measurement and process control instrumentation for over 45 years, is pleased to introduce a new electronic register called the *LectroCount LCR-II™*. The *LCR-II™* features LC's popular, easy to read 1" LCD display plus:

- A rugged, die cast aluminum Weights & Measures sealable enclosure.
- Large, easy access hinged cover for ease of installation and service.
- Two control buttons for PRESET and PRODUCT selection plus viewing of Totalizer, Flowrate, Temperature, and Time.
- Significant additional wiring space inside the easy-access enclosure.
- All the traditional features of the LCR Register including:
  - Electronic Temperature Volume Compensation.
  - Multiple Product, Multiple Point Calibration and much more.

The NEMA 4X register is rated for temperature ranges from  $-40^{\circ}\text{F}$  to  $158^{\circ}\text{F}$ , and designed to meet Class I, Division 2 environments (Groups C and D). *LectroCount LCR-II™* registers are Weights & Measures approved and are fully compatible with virtually all fuel-delivery truck meters. For more information on this product, contact Liquid Controls at 1-800-458-5262 or visit our web site at [www.lcmeter.com](http://www.lcmeter.com).
