

News Release

NEW – LectroCount Remote Display August, 2003

Lake Bluff, IL – Liquid Controls, an industry leader in flow measurement and process control instrumentation for nearly 50 years, is pleased to introduce a new register accessory called the LectroCount Remote Display. The LectroCount Remote Display is ideal for Aviation, Railroad, bulk plant/terminal, and other fueling applications.

Features include:

- Large, 6-Digit, Backlit Display with 2¼-inch digits, viewable up to 100 feet.
- Rugged, fabricated steel, NEMA 4X enclosure.
- Mountable up to 100 feet from primary signal source.
- Models available for use with:
 - LectroCount LCR, LCR-II™ and LC³ Electronic Registers (Weights & Measures Approved in USA & Canada).
 - LCMass™ Coriolis Mass Flowmeter.
 - LCMag™ Electromagnetic Flowmeter.
 - Single Channel Electronic Pulsers.
 - Solid State Quadrature Pulsers.

The NEMA 4X display is rated for temperatures from -22° F to 158° F, and is designed to meet Class I, Division 2 requirements (Groups C and D). For more information on this product, contact Liquid Controls at 1-800-458-5262 or visit our web site at www.lcmeter.com.
