Introducing the New LectroCount LCR-II™ from LIQUID CONTROLS

Lake Bluff, IL – Liquid Controls, an industry leader in flow measurement and process control instrumentation for over 45 years, is pleased to introduce a new electronic register called the **LectroCount LCR-II™**. The **LCR-II™** features LC's popular, easy to read 1" LCD display plus:

- A rugged, die cast aluminum Weights & Measures sealable enclosure.
- Large, easy access hinged cover for ease of installation and service.
- Two control buttons for PRESET and PRODUCT selection plus viewing of Totalizer, Flowrate, Temperature and Time.
- Significant additional wiring space inside the easy-access enclosure.
- All the traditional features of the LCR Register including:
 - Electronic Temperature Volume Compensation.
 - Multiple Product, Multiple Point Calibration and much more.

The NEMA 4X register is rated for temperature ranges from -40°F to 158°F and designed to meet Class I, Division 2 environments (Groups C & D). **LectroCount LCR-II™** registers are Weights & Measures approved and are fully compatible with virtually all fuel-delivery truck meters. For more information on this product, contact LIQUID CONTROLS at 1-800-458-5262 or visit our web site at www.lcmeter.com.
